

Shoot Me Again

Metallica

I won't go away, right, right here I stay
Stand silent in flames, stand tall 'til it fades
Shoot me again, I ain't dead yet
C'mon, shoot me again, I ain't dead yet
I said, shoot me again, I ain't dead yet
C'mon, shoot me again, I ain't dead yet
C'mon, shoot me again, shoot me again, shoot me
Shoot me again, shoot me again
C'mon, shoot me again, shoot me again, shoot me
Shoot me again, shoot me again, c'mon
All the shots I take, I spit back at you
All the shits you fake comes back to haunt you
All the shots, all the shots
All the shots I take, what difference did I make?
All the shots I take, I spit back at you
I won't go away with a bullet in my back
Right, right here I stay with a bullet in my back
Shoot me, take a shot, shoot me, take a shot
Shoot me, take a shot, shoot me, take a shot
I stand on my own with a bullet in my back
I'm stranded and sold with a bullet in my back
Shoot me again, I ain't dead yet
C'mon, shoot me again, I ain't dead yet
Yeah, shoot me again, I ain't dead yet
C'mon, shoot me again, I ain't dead yet
I said, shoot me again, shoot me again, c'mon
Shoot me again, shoot me again, c'mon
Shoot me again, shoot me again, shoot me
Shoot me again, shoot me again, yeah
All the shots I take, I spit back at you
All the shits you fake comes back to haunt you
All the shots, all the shots
All the shots I take, hey, what difference did I make?
All the shots I take, I spit back at you
Bite my tongue, trying not to shoot back
No compromise, my heart won't pump the other way
Wake the sleeping giant, wake the beast
Wake the sleeping dog, no, let him sleep
Wake the sleeping giant, wake the beast

Wake the sleeping dog, no, let him sleep
Bite my tongue and trying not to shoot back
All the shots I take, I spit back at you, yeah
All the shits you fake comes back to haunt you
All the shots, all the shots
All the shots I take, hey, what difference did I make?
All the shots I take, I spit back at you
