Passport

Glamatron

I got a passport officer
This time you ain't getting what you want
This time you're doing only what you must
This time you're doing only what you must
Where is your friend now officer
That sharp good-looking lieutenant
Border patrol good-looking lieutenant
That got vacation cause he shot my friend

Where is your friend now officer?
That sharp good-looking lieutenant
His wife got acne and his children cry
His children cry, "Assassin"
