

# Mercury Rising (feat. Anabel Englund)

## Hot Natured

Flying climbing  
This is what I feel when I'm reverse skydiving  
Neptune shining  
Frying all the elements as they're combining  
Rewind timing  
This be the contract for sky I'll be signing  
No concern for wining or dining  
Wind so blue that it might be blinding  
All that I know is I won't be minding You don't have to jump to fly with me  
You don't have to jump to fly with me  
You don't have to jump to fly with me  
You don't have to jump to fly with me Flying climbing  
Giving me a smile that's the inverse of crying  
Upwards mining  
My dress seems like a ruby and the stars be aligning  
Sky that's shining  
Angles that I'm turning on continue refining  
No concern for eyes that are prying  
Spell my name with lighting and keep rewinding  
All that I know is I won't be minding You don't have to jump to fly with me  
You don't have to jump to fly with me  
You don't have to jump to fly with me  
You don't have to jump to fly with me Flying climbing  
This is what I feel when I'm reverse skydiving  
Neptune shining  
Frying all the elements as they're combining  
Rewind timing  
This be the contract for sky I'll be signing  
No concern for wining or dining  
Wind so blue that it might be blinding  
All that I know is I won't be minding You don't have to jump to fly with me  
You don't have to jump to fly with me  
You don't have to jump to fly with me  
You don't have to jump to fly with me
