Paradise

Kaci

Could it be the little things you do to me Feelings that I'm feeling are so new to me I'm going through so many changes Nothing ever felt as strange As how my heart goes crazy when you look at meWhen I'm with you it's paradise No place on earth could feel so nice Through the crystal waterfall I hear you call Just take my hand it's paradiseYou kiss me once, I'll kiss you twice As I gaze into your eyes, I realize it's paradise Ooh yeahNow I know the sweetest dreams can all come true 'Cuz I found heaven here on earth when I found you It's nothing I can ever make up, oh I hope I never wake up Just to find this isn't true realityWhen I'm with you, it's paradise No place on earth could feel so nice Through the crystal waterfall I hear you callJust take my hand, it's paradise You kiss me once, I'll kiss you twice As I gaze into your eyes, I realize it's paradise Ooh yeah The world around us disappears without a trace Telling me that I have found the perfect place Let us stay this way forever deep in love And may I never spend another day without you close to meOh paradise Yeah, yeah, yeah, yeah, yeah OhJust take my hand, it's paradise You kiss me once, I'll kiss you twice As I gaze into your eyes, I realize it's paradiseJust take my hand, it's paradise You kiss me once I'll kiss you twice As I gaze into your eyes, I realize it's paradise As I gaze into your eyes, I realize it's paradise Oh yeah, oh, it's paradise, oh
