

# I Get Along With You

George Strait

I don't get along  
With people who aren't kind  
I don't get along  
With folks with only money on their mind And I don't get along with someone  
Who's always trying to tell me what to do  
But on and on I get along with you Well, I don't like  
People always telling me that I should change  
They get simple lives  
For them to think they've got my life to rearrange But they don't understand  
Exactly what love boils down to  
'Cause on and on  
(On and on)  
I get along with you Well, all it takes to please me  
Is waking in the morning, feeling you by my side  
And all I ever needed  
Is knowing that I'm needed in your life I may not do all the things  
That other people want me to  
But on and on  
(On and on)  
I get along with you Yeah, on and on  
(On and on)  
I get along with you
