Billy Seals

Sanctity

I've lost with all the best intentions
I've conquered through with lies
The air is burning cold, so coldI've come full circle, I've come full circle
From pain to pain
Now one to show me the wayThis time I will not fail
Won't be left behind again
My life a dismal tale
No way to guess what lies at the endIt's so hard to scream when you can't breatheI've come full circle, I've come full circle
From pain to pain
Now one to show me the wayThis time I will not fail
Won't be left behind again
My life a dismal tale
No way to guess what lies at the endThis time I will not fail
Won't be left behind again
My life a dismal tale
No way to guess what lies at the end...
