

Wet Hot American Summer

Cobra Starship

I made a few mistakes
I don't worry anymore
We never could relate
But I don't hate you anymore
Oh noCause summer's in the air now,
I gotta get my game down tight
It's alrightYou'll go and get the word out
We're gonna rock this party tonight
It's alrightI never meant to hurt you, girl you know
You've never felt a winter quite so cold
But when the sun comes up
I'll still be around,
Cause it's summertime,
Get downG-g-g-get up, get up, to get down, get down
Get up, get up, to get down, get downWe're blazin' Warren G,
And regulators cruising slow
Roll down your windows man
We've gotta let them suckers know
Oh, ohThe summer's in the air now,
We've gotta get our moves down tight,
It's alright
You've gotta feel the beat now,
Them harlots wanna see
That you know how to rock all nightI never meant to hurt you, girl you know
You've never felt a winter quite so cold
But when the sun comes up
I'll still be around,
Cause it's summertime,
Get downG-g-g-get up, get up, to get down, get down
Get up, get up, to get down, get down, down
You gotta, get up, get up, to get down
Cause it's summertime, get downAll my friends are in the city
Gonna be the best summer
We'll catch a ride out of the city
If you catch a summer time blues
Therefore
All the pretty girls will know,
We don't need nowhere to go
We can drive around

On and on I never meant to hurt you, girl you know
You've never felt a winter quite so cold
But when the sun comes up
I'll still be around,
Cause it's summertime,
Get down I never meant to hurt you, girl you know
You've never felt a winter quite so cold
But when the sun comes up
I'll still be around,
Cause it's summertime,
Get down G-g-g-get up, get up, to get down, get down
Get up, get up, to get down, get down, down
You gotta, get up, get up
You gotta, get up, get up, to get down
