LOVE

Words and Music by Margo Guryan

Love
What does it mean
To live between
The beginning and ending of love
Where do you go
To get to know
The reason why a brand new feeling
Comes to take you
Away from reason

Love
How do you know
The things you do
You do not only from need
And not from greed
But only from love

Love
When do you get to be
Someone who can give
And live without hurting
Someone you love
Why do we grow
And never show
The little that we know love
