Garden Of Evil

1997

I ran through the garden of evil
Trace your steps I saw it all
Did he hold your hands the way you prefer?
Did he ask you like I asked you our first time?Turn the light off
I don't wanna see myself doing this
I just wanna love you
I just wanna love you as much as he didI ran through the garden of evil
Take some steps, I pull away
Why am i running if he keeps slowing?
So I hesitateOh, is this really what you want from me?
(Oh, is this really what you want from me?)
Oh, is this really what you want from me?Turn the light off
I don't wanna see myself doing this
I just wanna love you
I just wanna love you as much as he didAnd maybe this time, we can do it right
So I say, close your eyes and maybe this time
We can do it right, so I say, close your eyes
And take your time, don't be afraidI fell into a wishing well
So that's where I've been drinking
Turns out it drove into the ground
So much for wishful thinkingI fell into a wishing well
So that's where I've been drinking
Turns out it drove into the ground
So much for wishful thinkingIs this really what you want from me?
I fell into a wishing well, so that's what I've been drinking
Is this really what you want from me?
I fell into a wishing well, so that's what I've been drinkingTurn the lights on
Pick me up and carry me away from this
I don't want you to love me
I don't want you to love me just like they didAnd maybe this time we can do it right
So I say, close your eyes
And maybe this time we can do it right
So I say, close your eyes, take your time don't be afraid
