

She's Just Killing Me

ZZ Top

Everything about her was natural
Everything about her was cool
But I'm a little partial for beautiful girls
Even if their blood runs blue I think I see her
I think I want her
I think I love her
She's just killing me
I think she's killing me Her castanets are enormous
Her bongo beat absolute
And when she doin' midnight performances
She's got a secret somethin' to boot I think I see her
I think I want her
Oh, I think I love her
But she's just killing me
I think she's killing me Miss Satanic Pandemonia
Don't get any lower or slower
What you see, what you get con migo
And the bonus of an albino boa I think I see her
I think I want her
Yes, I think I love her
She's just killing me
She's just killing me
That's some time I had I think I see her
I know I love her
Yes, I might love her
She's just killing me
She wanna be killing me
Suck my blood
