

Steam Train Girl

Teleman

ooh and now a train comes to take you where you got to be
sure enough you never felt so free
south of nowhere you call friends
don't turn round cause the train tracks ends
what does it mean to be rolling hard
gather the most
because you stop so fast
what can you do to get attention now
struggling not to get a good good
down down down
that's the railway
come come come
need to be pace
not so so so
complicated now
is it the club where you can feel the long
now

ooh and now a train comes to take you where you got to be
sure enough you never felt so free
south of nowhere you call friends
don't turn round cause the train tracks ends
what does it mean to be rolling hard
gather the most
because you stop so fast
what can you do to get attention now
struggling not to come a long way
down down down
that's the railway
come come come
need to be pace
not so so so
complicated now
is it the club where you can feel the long
