

# Favorite Song

## Howie Day

I'm waiting for a simple code  
I write it down for all to see  
Your trust is like a little light  
You carry around but never use

I'll be getting on my way tonight  
And I will play my favorite song  
I will listen to the wind outside  
And I will hear my favorite chord  
My favorite chord

I'm waking up in a different place  
Warm sun against my face  
I recognize the world outside  
The strangest tenor in my voice

I am staying where I am tonight  
And I will wear my only clothes  
I am staring out to sea tonight  
And I will play my favorite song  
To it all...  
To it all...

I'm waiting for a simple code  
I write it down for all to see  
Waving lights are in your eyes  
And I will play my favorite song
