

Subhuman Condition

Aversion to Life

Murdering- my life's work- Cruelty and Suffering
Feeding on "innocence" and dreams of cataclysm
To die condemned "and to live again" cursed by death "atrocities
Psychopath "I justify- extinguishing human life

Apparitions- haunting me "tormenting my consciousness and my will
Condemning my soul to-relive a-gain and a-gain this existence of death
Reincarnate "to a Being of Hate and Darkness
Fucking repulsed -by this world- humankind "uncreation "denouncing

Immolating "Sacrificial Murdering "fulfilling my god's plan of pain
A sickness thrives in me "killing everything I see "mass cremation to cleanse the earth
Unholy offerings "tainted with sin and bleeding
My pure hatred "to all fucking living things- controls my every waking moment

This "Subhuman "Condition

Bound by your rosary you scream "choking on holy water and cum

Motivated by disgust of
Voices I cannot stop- my flesh "tormented by malevolence
Death will not comfort "doomed my rebirth
Sociopath tendencies that leave me condemned and killing
They all have to die "their damnation I inflict "decimation

Apparitions- haunting me "tormenting my consciousness and my will
Condemning my soul to-relive a-gain and a-gain this existence of death
Reincarnate "to a Being of Hate and Darkness
Fucking repulsed-by this world- humankind "uncreation "denouncing
