Opportunity (We Could Be the Ones)

Forever Changed

Stop and look around, everyone's sick in this town.
Plagued with apathy; walking through life aimlessly.
Crawling on the ground; they're tired of getting knocked down.
Their face is badly burned, the rescuers haven't returned.Who will help me out?
I can't do this on my own.
Is anybody reaching out?
Does anybody care?We could be the ones. (Let your love come quickly)
We could be the ones. (Let your love come quickly)
If you want them to change - they will.
If you give everything - they will.
We could be the ones. (Let your love come quickly)Lonely and confused.
Hurt, broken, scared and abused.
Angry at the world,
They never know who to turn to.
So everyone who knows the truth please lend a hand.
The opportunity may never come again.We could be the ones. (Let your love come quickly)
We could be the ones. (Let your love come quickly)
If you want them to change - they will.
If you give everything - they will.
We could be the ones. (Let your love come quickly)Is anybody reaching out?
Let your love come quickly.
We can't ever let them slip away,
Because every soul is waiting.
We can't let them go, no.
Does anybody care?We could be the ones. (Let your love come quickly)
We could be the ones. (Let your love come quickly)
If you want them to change - they will.
If you give everything - they will.
We could be the ones. (Let your love come quickly)
