She Knows Everything

Medicine

We should stop now
Kill the fatted cow
And get out of hereIt's so strange how
Time can kill
The things that you care for
The things that you care forIt's a sad thing
She knows everything
You don't wanna know
It's just nothing
The way I feel right now
I don't wanna knowYou can stop now
Tie her to the bed
And guide her
It won't stop now
There's only one thing
That lasts forever
Lies forever
