Spit You Out

Good Riddance

Rejection
Like a promise unfulfilled
From an emptiness distilled
As one final sign
Perpetuates our slow decline
Wee failed
The systems wee created drag us downOn corded streets
Wel die alone
Our dreams are only flesh and boneOne day some ay
When you fall apart and waste away
Youl see no doubt
This world is gonna spit you outDrained
No sign of life
This world of lies
Is gonna cut you down to size
