

# Across the Great Divide

## Semisonic

Over mountains  
That's where my love lives  
A long, long ride to sunland  
Here, where I did this Across the great divide alone  
Wondering, open, afraid and  
Arriving alive, unknown  
Unknown, unwise and unaided If I could, I might  
Send my love on a plane ride  
A black cross high in a blue sky  
A green cross gliding on a million pines Across the great divide alone  
Wondering, open, afraid and  
Arriving alive, unknown  
Unknown, unwise and unaided Across the great divide alone  
Wondering, open, afraid and  
Arriving alive, unknown  
Unknown, unwise and unaided Across the great divide alone  
Wondering, open, afraid and  
Arriving alive, unknown  
Unknown, unwise and unaided Across the great divide alone  
Wondering, open, afraid and  
Arriving alive, unknown  
Unknown, unwise and unaided  
Unknown, unwise and unaided
