

# Lost

## Old & In the Way

Ever since you turned me down  
All I do is ramble round  
Now I don't care what happens to meMy heart was young and gay  
Till the day you went away  
Now life here means nothing to meChorus  
Lost, lost, lost  
Lost in this world without you  
Lost, lost, lost  
Lost in this world without youThe lies that you told  
Tortured my weary soul  
Love is blind, I guess I couldn't seeAnd now all I can do  
And now all I can say  
Is honey what more do you want from me?[chorus]Ever since you turned me down  
All I do is ramble round  
Now I don't care what happens to meMy heart was young and gay  
Till the day you went away  
Now life here means nothing to me
