Love Is On Our Side

Sonique

I'll be around, love is on our side
I'll be around, love is on our side
I'll be around, love is on our side
I'll be aroundLove is a two way street
Didn't know what pain could bring
Time has shown me the way
Now I'm here for a brighter dayFor the first time in my life
I can really see the light
In hearts we both have found
True love won't let us downI'll be around, love is on our side
I'll be around, love is on our side
I'll be around, love is on our side
I'll be around, love is on our sideNow more than anytime
I need you in my life
Joy will be our guide
Keep the feeling rain or shineTender moments fill my mind
They'll remain till the end of time
Clouds are gone, the skies are clear
And a deeper love appearsI'll be around, love is on our side
I'll be around, love is on our side
I'll be around, love is on our side
I'll be around, love is on our sideSomeone let so much love
Someone let so much love
Oh I want it and I need it
I want you by my sideIs on our side
Love is on our side
Love is on our side, yea yea yea yea yea
Ohh, it's on our sideI'll be around, love is on our side
I'll be around, love is on our side
I'll be around, love is on our side
I'll be around, love is on our sideLove is on our side
Love is on our side
Love is on our side
Love is on our side
