

With Eyes Wide Open

In Flames

A fate that we deserve
There's no escape
(We're) walking backwards
I'm on your side but life's a selfish thing
Like broken promises A thousand times
Try to fake it
Just another liar It's the wall that we're building
All the things that we made wrong
Don't blame yourself if you walk away
You reach, but nothings there
Time and time again
Colors fade from black to grey How come we walk a mile just to shatter what we love
Eyes wide open
Reflections of an unfamiliar face
Saying, "You know where you're heading" The lost dream
Of what could have been
It makes no difference It's the wall that we're building
All the things that we made wrong
Don't blame yourself if you walk away
You reach, but nothings there
Time and time again
Colors fade from black to grey It's the wall that we're building
All the things that we made wrong
Don't blame yourself if you walk away
You reach, but nothings there
Time and time again
Colors fade from black to grey
