Don't Run

Jordan Knight

I feel like the world is on my head
I don't wanna lose what made me a man
Still when I call your name
I wait you'll say, you're so far awayNow that I feel the well so dry
I need you to fill me up inside
Baby, you turn me on and onJust wanna hold you
I'm dying to show you
Don't run from me
Don't turn your back on meWe're getting closer
Don't say that it's over
Don't run from me
Don't turn your back on meCome out of the dark
Don't tear us apart
Don't run from my heartIt took me some time to understand
What all along I held in my hands
If you give me one more chance
I'll prove I'm true to youNow every night it seems so wrong
I'm here all alone where you belong
Girl, let me turn you on and onI'm such a dreamer
When I'm sleeping, I'm thinking of you
A million roses, waterfalls around a bed for twoSippin' fruits with the best, babe
I'm not here for the rest, babe
Need your candlelight, sweet love tonight
I can't afford to lose you
