Seven Waves

Trophy Wife

I don't think too much
I don't look inside
For the things I hid away for all those years
Have faded now or diedSo don't you look through me
With those stranger's eyes
For the world keeps turning underneath my feet
If I go on with the liesSo hey baby don't you go out tonight
It's only me that criesAnd love is waves away
We are waves away
Love is waves away
Seven waves awayThat's me down here
Shinin' up your shoes
Keeping my head down like I always do
When you walk in with the bluesThere's nothing to be said
Nothing to be done
I've laid myself down at your famous feet
When you said I was the oneHey baby don't you stay out tonight
And say it isn't doneAnd love is waves away
We are waves away
Love is waves away
Seven waves awayAnd love is waves away
We are waves away
Love is waves away
Seven waves awayAnd love is waves away
We are waves away
Love is waves away
Seven waves awayThe sound that comes to you sleepin'
In the darkness
Is a doorwayYeah the sun that beats on the window
Every morning
Is a doorwayYeah the sun that calls through the window
Every morning
Is a doorwayIt doesn't hurt anymore
It doesn't get me down
But I might just swim out on the waves tonight
And lay right down and drownDo you really want to be here tonight
Or are you just around?And love is waves away
We are waves away
Love is waves away

Seven waves awayLove is waves away
We are waves away
Love is waves away
Seven waves awayLove is waves away
We are waves away
Love is waves away
Seven waves away
