More Than Heaven

Linda Eder

Oh, oh, when I came into this world
It was so I'd learn what in life I could become
And when, when I leave this world
It will be to you that my soul will runMore than the sun, more than the stars
More than the sum of all life's parts
More than heaven
I have loved you more than heavenThey can take away my life, take away my fire
Till there's nothing left to light
And they, they can have my dreams and all my memories
They are just earthly thingsMore than the moon, more than the stars
More than the beating of my heart
More than heaven
I have loved you more than heavenMore than life could ever hope to offer
I have loved you all along, oh, ohSo come, take away my life, take away my fire
Till there's nothing left to life
And come, you can have my dreams and all my memories
They are just earthly thingsMore than the sun, more than the stars
More than the beating of my heart
More than heaven
I have loved you more than heaven
More than heaven
I have loved you more than heavenMore than heaven, oh
More than heaven, oh
More than heaven, oh
More than heaven, oh
