

# Don't Know Her Name

## Emblem3

Don't even know her nameHuh, huh, no no  
Ended up at my place, She'd never told me her name  
When I woke up I was alone.

I don't understand but, made her run away cause  
I felt like JJ, we share the same soulI wish, I would've asked what she's about  
But she, snuck out the back when the sun came outReally wished that she had stayed  
Could've never left the bed all day  
Oh, but I don't even know her name  
Don't even know her, I I don't even know her name  
Don't know her name, no oh

Running down my street, asking everybody  
And they all tell me I'm out of my mind  
Staring at the ceiling, I can't shake this feeling  
She forgot me and she's doing alrightNo no I wish, I would've asked what she's about  
But she, snuck out the back when the sun came out  
Really wished that she had stayed  
Could've never left the bed all day  
Oh, but I don't even know her name

Don't even know her, I I don't even know her nameWish I told her what she meant to me  
Coulda had more than a memory  
Oh, but I don't even know her name  
Don't even know her, I I don't even know her nameYou know you got me, all falling  
Don't even know who you are, are  
I've gotta find you, I really need to  
You hold a piece of my heart, heartI wish, I would've asked she's about  
But she, snuck the back when the sun came out  
Really wished that she had stayed  
Could've never left the bed all day, (never left the bed)  
Oh, but I don't even know her name

Don't even know her, I I don't even know her name (I don't even know her name)  
Wish I told her what she meant to me (wish I told her what she meant to me)  
Coulda had more than a memory (so much more baby)  
Oh, but I don't even know her name

Don't even know her oh, I I don't even know her name (don't know her name oh)Don't know her name, don't  
know her name oh no no  
Don't know her, don't know her name

I don't know her name I don't know her name  
No, I don't even know her name  
I don't even know her nameNO, I don't even know her name
