

Fun

Smash Mouth

It's 2003 and where do you wanna be? In '42 or 1970?
And maybe we should take a good look around
I don't get why the planet is so upset
And don't do something you might regret
I'm telling you it's starting to get in the way
Let's have some fun while we're still young
Turn up the sound 'til your feet leave the ground
Let's drive the car 'til we've gone too far
Then we'll pick up the pieces and push it back home
Let's start with liberty's broken heart
And NYC could never be torn apart
It could be one world, not three, oh
Girlfriend, kiss his very soul
And boyfriend, tell her she's beautiful
And family man, say, "Baby mama it's okay"
Let's have some fun while we're still young
Turn up the sound 'til your feet leave the ground
Let's drive the car 'til we've gone too far
Then we'll pick up the pieces and push it back home
Let's have some fun while we're still young
Turn up the sound 'til your feet leave the ground
Let's drive the car 'til we've gone too far
Then we'll pick up the pieces and push it back home
Yeah, we'll pick up the pieces and push it back home
Let's, let's push it back home
C'mon and push it back home
