Mailbomb

Systematic

I got your hate mail here
The perfect way to die
Giving up your opinion
I'll give ya what I prescribe
Down to sizeI got your hate mail here
I'm like a needle in your eye
Can't deny your opinion
I'll give ya what I prescribeThis is beyond for real
It's beyond all of your repair
Did you get the news?
No reprise when you're down thereIt brings you down
It brings you down
It brings you down
To my sizeI got your hate mail here
The perfect way to die
Can't deny the messenger
Can't rely solely on abuseComing down my ugly truth
Coming down for just your use
When it's in your face
All of me into youIt brings you down
It brings you down to my size
It brings you down to my sizeIt brings you down to my size
It brings you down
