## Rick Garcia

So proud, take a bow it's coming 'round  
I think I'll give you a taste  
You won't forget the day we met  
And what was said  
So now the time has come  
To watch your back don't stand alone  
And I'll say  
Just one last thing, don't turn away  
Why can't you listen to me?  
Find it out  
The price is out on your head  
And I'm willing to pay  
Your time ran out  
Your lights go down in red  
Afraid to take a stand  
It's your last chance to make amends  
Now you'll pay for your mistakes  
It's your last day  
Why can't you listen to me?  
You'll find it out  
The price is out on your head  
And I'm willing to pay  
Your time ran out  
Your lights go down in red  
Listen to me  
Find it out  
The price is out on your head  
And I'm willing to pay  
Your time ran out  
Your lights go down and now you'll see  
I don't give a fuck  
I don't give a fuck  
Listen to me, lesson to you  
Listen to me, lesson to you  
Listen to me, lesson to you  
Listen to me break  
Why can't you listen to me?  
You'll find it out  
The price is out on your head

And I'm willing to pay  
Your time ran out  
Your lights go down in red  
Listen to me  
Find it out  
The price is out on your head  
And I'm willing to pay  
Your time ran out  
Your lights go down and now you'll see  
So proud, take a bow it's coming 'round  
You'll find out  
Listen to me, lesson to you  
Listen to me, lesson to you  
Listen to me, lesson to you  
Listen to me, lesson to you
