

# You Went Away

Rw

You went away  
'Cause you said that you can't stand me  
So I went away  
I was sure that you can't stand meWell, I don't think we have to be like this forever  
Is there more to life than love and being togetherYou went away  
'Cause you said you couldn't love me  
I went away  
'Cause all I do is love youWell, I don't think we have to be like this forever  
There's more to life than love and being togetherMy loud guitar comes in  
My thumpin' drums come through  
When my loud guitar comes in  
My thumpin' drums come through  
My loud guitar comes in  
My thumpin' drums come throughWell, I don't think we have to be like this forever  
There's more to life than love and being togetherThere's more to life than love and being together  
Is there more to life than love and being together  
I went away
