Idoless

The Distillers

Advisory - the following lyrics contain explicit language:

I don't know but I know it
You better find out what your place is
Urban plight is in the city streets
Its infectious and its complacentIdolessOver expression and rationed, assimilated temptation
Integrity, integrate, integregation
Molested, accosted, detested
Ill wreck this coming down like the apocalypseIdoless syndicationI don't know but I know it
You better find out what your name is
Arrested, infested, its your collective
Coming off like you wrote the ten commandmentsIdolessI dont know but I know it
You better find out what your place is
Urban plight is in the city streets
Its infectious and you are complacentIdoless
The idol is within you
Watch it come on through
The idol is within you
