

# Idoless

## The Distillers

Advisory - the following lyrics contain explicit language:

I don't know but I know it  
You better find out what your place is  
Urban plight is in the city streets  
Its infectious and its complacentIdolessOver expression and rationed, assimilated temptation  
Integrity, integrate, integration  
Molested, accosted, detested  
Ill wreck this coming down like the apocalypseIdoless syndicationI don't know but I know it  
You better find out what your name is  
Arrested, infested, its your collective  
Coming off like you wrote the ten commandmentsIdolessI dont know but I know it  
You better find out what your place is  
Urban plight is in the city streets  
Its infectious and you are complacentIdoless  
The idol is within you  
Watch it come on through  
The idol is within you
