Peace And Love

Barry Brown & Ranking Toyan

peace and love peace and love its all i'm thinking of peace and love baby peace and love peace and love its all i'm thinking of baby peace and love riding around in a volxwagon van thinkin' 'bout the people upside down in japan staring at the stars in a distant galaxy wondering if theres someone out there staring back at me peace and love peace and love its all i'm thinking of baby peace and love peace and love peace and love its all i'm thinking of baby peace and love lying on the floor just playing my guitar trying find the chords for just the way you are (don't go changing) plane crash flashin on my tv well it could have been you baby, it could have been me but maybe things could be worse we'll never live forever cause when we get together we are one with the universe sometimes i think i might just move up to vermont open a bookstore or a vegon restaurant got crazy karma never harmed a single soul so if you want to join me, together we'll grow old peace and love its all i'm thinking of peace and love baby peace and love peace and love peace and love its all i'm thinking of baby peace and love
