

# Father

## Hillsong UNITED

To bring this world to life  
To heal this heart of mine  
Your grace enough, your grace enough To mend this world in need  
To break the chains in me  
Your grace enough, now this means love The weight of all our sin upon His shoulders  
We should all be called Your sons and daughters Father, let heaven and earth collide  
In the endless wonder of Your love upon the cross  
We will follow and offer this life forever  
To see Your love unfold Adopted as Your own  
Alive to make You known  
Now this means love, this means love The weight of all our sin upon His shoulders  
We should all be called Your sons and daughters Father, let heaven and earth collide  
In the endless wonder of Your love upon the cross  
We will follow and offer this life forever  
To see Your love unfold For the lost and for the broken  
For the slave and for the orphan  
For everyone to realize Your love From the famous to the faceless  
From the beggar to the king  
For everyone to realize Your love You restore the broken hearted  
You bring freedom to the captive  
For one and all, forever this means love All Your children come together  
All Your sons and all Your daughters  
Your grace enough, forever this means love Singing, Father, let heaven and earth collide  
In the endless wonder of Your love upon the cross  
We will follow and offer this life forever  
To see Your love unfold Your grace enough, forever this means love  
You gave it all for one and all  
Your grace enough, forever this means love
