

# Extraordinary

[Nicki Richards](#)

I was a bay tree quiet and unseen  
I lived in stories but inside I kept a mystery  
I was a starling, nobody's darling  
Flying in perfect circles just for company  
And now I'm ready and now I'm ready  
And now I'm ready to be extraordinary  
A midnight airplane, a window glowing  
I know I am another sparkle in the sky  
I shine on copper still undiscovered  
But you might see me in the corner of your eye  
And now I'm ready and now I'm ready  
And now I'm ready to be extraordinary  
Waking up to wake up someday  
I am my own prey  
Stopping off at a sidewalk cafe  
The wind is playing in the trees  
Kicking up confetti leaves  
Seems as if it's all to say  
And now I'm ready, yeah now I'm ready  
And now I'm ready to be  
(Extraordinary)  
And now I'm ready and now I'm ready  
And now I'm ready to be extraordinary, extraordinary
