

Vision

Funker Vogt

This is the next century
and we live far beyond
killing people doesn't matter
a necessary means to an end waiting for the final day
a premonition of what will come
the clock counts of the seconds
at least there will be no retreat a vision and a dream
it was now and had been
the focus of everything
you can't escape the deadly sting you ride into the abyss
at a hundred miles an hour
now you have already reached
the point of no return this is your destiny
to protect the new invention
even if it costs your life
we'll be equal to our gods a vision and a dream
it was now and had been
the focus of everything
you can't escape the deadly sting
