## Citizen Cope

Chorus

Newspaper got some more people killed, yeah  
Magazine, watch 'em shoot 'em in the field  
Radio, they turn another deaf ear  
??Institution stole everything else??Sergeant man he's workin' on the lead  
From a skunky at the Double Tree  
Five cannons outside the door  
Five badges and a labradorWanna chase after the dollar bill  
Gotta race up the forgotten hill  
They don't want you but you still here  
God knows thats a miracleChorusThey pulled him over on the interstate  
In her apartment through a stun grenade  
Found a pistol, put the house in flames  
That's what happens in the world todayWanna chase after the dollar bill  
Gotta race up the forgotten hill  
They don't want you but you still here  
Lord knows thats a miracle
