

Just Plain Bad

Angry Johnny and The Killbillies

My happy days are over
My good time days are through
Prison days have just begun all on account of you
The things they said were so full of spite
They said you were no good
Nobdy left that fucking bar that night until they understood

It's like an angel walked right through my door
When I first laid eyes on you
I remember it like it was yesterday I wish that you did too
Everybody said you were a whore
I said "That can't be true"
But I guess only a cheating whore would do the things you do

The day we met I should havĐµ run like hell
When I had thĐµ chance
Before I knew you put me under a spell
With that voodoo in your pants
One little taste and I was hooked like a fish
You said "Come on, let's dance"
Ever since I've been a braindead fool
Just a zombie in a trance

You fucked my worst enemy
You fucked my best friend too
You fucked the whole damn bowling team 'til they were black and blue
You even fucked them siamese twins
You fucked them right in two
You're gonna fuck the whole goddamn world before you're fucking through

Thought you were pure like morning dew
But you were just plain bad
I'm just another stupid sucker who convuined hmslf he had
Heaven sent but none of it was true
But to my eternal detriment I'm still in love with you
Yeah my drinking days are over
My fighting days are through
My prison days have just begun all on account of you

While you were busy fucking everyone
You really fucked me too
I guess instead of killing everyone
I should have just killed you
