Day By Day

Generation X

Day by day, look what the papers say
Day by day, look what the papers say
Stranded in the jungle, trapped inside the tube
Hate your next door neighbor 'cos he's got more than youGoing round and round, day by day
On the circle line, day by dayDay by day, well, it's all work no play
Day by day, well, it's all work no play
Living for inflation, I know I never win
Just to earn a living they keep me locked inDay by day, well, who cares anyway
Day by day, well, who cares anyway
I feel like a robot on the production line
Ain't got no tomorrow on the circle lineGoing round and round, day by day
Going round and round, day by day
Going round and round, day by day, day by day
Going round and round, day by day
Day by day, day by day, day by day, day
