## Jadakiss

[feat. Teyana Taylor][Intro:]See me in the club with them bottles up

Tell the bartender he ain't got enough

See me in the club with them bottles up

[Verse 1:]I'm a hit em hard J to the block

Lil we-d on me let the joints in the car

Cardigan hermes silly with the scarf

You could just look at me and tell him his a boss

Order what you sip on Louis Vuitton slip off

If you can't stay in the race you get skip on

Over for this move shit time for improvement

Elegant wrist way turn me on movement

Yeah it's where bottles to a table,

Yeah would you like a bottle with a label

Go always in the red but they object just to pay you,

Then you wonder why I'm in the projects with the yayo

Crams in the music call it how to use it

When you get a dick with a something you abuse it

Yeah we're gonna drink till the sunlight

Listen hey I'm doing unless it's done right

[Chorus:]See me in the club with them bottles up

Tell the bartender he ain't got enough

See me in the club with them bottles up

Rock with me now.

Right now I'm in my prime (rock with me now)

Always been ahead of my time (so rock with me now)

I ain't here to tell you no lies (rock with me now)

Top five ghetto relies (rock with me now)

[Verse 2:]Yeah I'm getting money ain't nothing new

Nah, you should see they face when I'm coming through

Hah, bunch of weirdos looking corny

Started off with the blue jeans now took it to bonies

Keep you girl over there if you know if she's horny

Should have left her in the crib if you know she's know me

Hah, you see the difference in the stones

Forty [?] kick back where is from

Now I act a little different 'cause I'm wrong  
Sour come out when the piss is all gone  
Stay given them helll, keep heaven with me  
I seen the game when I [?] out that's a cheapny  
Coming down seven [?] the new seven fifty  
And all I do is pray that the fads never get me  
[Chorus:] See me in the club with them bottles up  
Tell the bartender he ain't got enough  
See me in the club with them bottles up  
Rock with me now.  
Right now I'm in my prime (rock with me now)  
Always been ahead of my time (so rock with me now)  
I ain't here to tell you no lies (rock with me now)  
Top five ghetto relies (rock with me now)
