

Electricity

311

This song started as a rant against haters
That'd be giving in to the instigators
There is one thing I'd like to pull off
Someone steps with hate all I do is to scoff
Can't burn me, you can't burn me The same force that flows through every circuit
The juice that's spent everytime you work it
Every life form is based on this simplicity
The soul that you have is electricity
Can't avoid that evolution is fact
We're all from the same Lucy
Despite differences you see I'm in disbelief at what people will believe
All along I thought we had our hearts on our shirt sleeve
One thing I can say as a piece of advice
Don't believe it till you see it and then see it twice, so funny it's so funny The same force that flows through
every circuit
The juice that's spent everytime you work it
Every life form is based on this simplicity
The soul you have is electricity
Can't avoid that evolution is fact
We're all from the same Lucy
Despite differences you see Call out for unity
In every province and city
What you think we've been singing
Since we first started playing
