

Birds

Crystal Castles

Layers of lace
Held in place
Diagnosed, you're a ghost Show up, throw up into the womb
Show up, throw up into the womb
Show up, throw up into the womb
Show up, throw up into the womb Pull out their eyes
Apologize
Emerald waves to lubricate Show up, throw up into the womb
Show up, throw up into the womb
Show up, throw up into the womb
Show up, throw up into the womb
