

Bubble Toes

Jack Johnson

It's as simple as something that nobody knows
That her eyes are as big as her bubbly toes
On the feet of a queen of the hearts of the cards
And her feet are all covered with tar balls and scars
It's as common as something that nobody knows
That her beauty will follow wherever she goes
Up the hill in the back of her house in the wood
She'll love me forever, I know she could
I remember when you and me mmm
How we used to be just good friends
Wouldn't give me none but all I wanted was some
She's got a whole lot of reasons
She can't think of a single one that can justify leaving
And he got none but he thinks he got so many problems
Man he got, too much time to waste
His dreams are like commercials
But her dreams are picture perfect and
Our dreams are so related though they're often underestimated
It's as simple as something that nobody knows
that
Her eyes are as big as her bubbly toes
On the feet of the queen of the hearts of the cards
And her feet are infested with tar balls and
La da da da da da
La da da da da da
La da da da da da
Well I was eating lunch at the D.L.G.
When this little girl came and she sat next to me
I never seen nobody move the way she did
Well she did and she does and she'll do it again
When you move like a jellyfish rhythm don't mean nothing
You go with the flow, you don't stop
Move like a jellyfish rhythm is nothing
You go with the flow, you don't stop
It's as common as something that nobody knows it
Her beauty will follow wherever she goes
Up the hill in the back of her house in the wood
She'll love me forever, I know she
La da da da da da
La da da da da da
La da da da da da
If you would only listen, you might just realize
What you're missing, you're missing me
If you would only listen, you might just realize
What you're missing, you're missing me
It's as simple as something that nobody knows that
Her eyes are as big as her bubbly toes
On the feet of the queen of the hearts of the cards
And her feet are infested with tar balls and
La da da da da da

La da da da da da
La da da da da da
La da da da da daLa da da da da da
La da da da da da da
La da da da da da
La da da da da da da da
