

# Join The Dots

## Queen Adreena

(Sunrise, Sunrise, She falls.)I join the dots and I post date this letter  
So cross out my name you'd do best to forget her  
Collaspe the synapse she can't tie her laces  
Learn to forgive her, forget her disgracesI join the dots and I bought shame upon you  
So cross out my name as I come to seduce youI join the dots and I cry insurrection  
The river runs through it, she knows my defection  
Expose her devices you knew all along  
The girl in the mirror she'll sing you her songI join the dots and I bought shame upon you  
So cross out my name as I come to seduce youI become you  
I become you  
And I become you.....I join the dots and this river below me  
For I am the rain and I'm running down country  
Reach out on a limb and I touch severed vein  
Her breath in the mirror I'll cross out my nameI join the dots and I bought shame upon you  
So cross out my name as I come to seduce you  
I join the dots and I bought shame upon youI become you....  
....(I become you)
