Crosseyed

Brendan Benson

Twitchy lady, so lovely with your short hair
Where do you come from? Where are you going?
My friends think you're ugly, mmmThey don't see what I see
I love my cross eyed baby
Your secret's safe with meI can't wait to get you out of here
Take you home with me, away from here
I'll never tell about what I found out
About a cross eyed girl
Who can surely make you shout
