Angel

Ooh, magic swords with many lords
For treasures that abound me
Ooh, battle cries that fill the skies with pain
Images I see make my destiny
Reflecting back to me, that which is to be
Ooh, at first, i thrust my sword the blood i felt
For warriors that I've
slain
Ooh, feeling more, the scars of war and pain
Images I see make my destiny
Reflecting back to me, that which is to be
Ooh, setting sights through horror nights
For ships that sail the sea
Ooh, so I yearn the dawn's returning fleet
Images I see make my destiny
Images I see make my destiny
Reflecting back to me, that which is to be
