Fly Me Away

Scott Sharrard

Drifting out of time
Something on your mind
And I wanna be the
One that you callWhen you get down
No matter where you
Are in the world
I'll be aroundFly me away on an aeroplane
High in the sky
Wanna see you again
Wanna know this timeGonna tell you what I'm feeling
Gonna know this time
Gonna get it back, that feelingMiles and miles of sun
Endless roads, twist on
Don't wanna live a life
In a world that's all the same
The crazy little things
That you do are magicalThis crazy life
This crazy world
We're living in is
Magical
