

# Fly Me Away

**Scott Sharrard**

Drifting out of time  
Something on your mind  
And I wanna be the  
One that you call When you get down  
No matter where you  
Are in the world  
I'll be around Fly me away on an aeroplane  
High in the sky  
Wanna see you again  
Wanna know this time Gonna tell you what I'm feeling  
Gonna know this time  
Gonna get it back, that feeling Miles and miles of sun  
Endless roads, twist on  
Don't wanna live a life  
In a world that's all the same  
The crazy little things  
That you do are magical This crazy life  
This crazy world  
We're living in is  
Magical
