

Homesick

Astronoid

My trust forever gone
We know your place
The distance that you've made
Separates
We all fall down
For misinformed
The portrait that your paint
Just causes pain
Fall to sleep
The one
Disconnected
Why must we belong
On my own
Hands over your eyes
The look of fear
I'd rather be ignored
Than insincere
Covered up by dirt
Your filthy ways
Your life is in my hands
Let's celebrate
They lay broken and bleeding
We will be okay
