

Wait for the Wintertime

Yeasayer

On a cold day, nothing's gunna stop us
On a cold day, you can see forever
On a cold day, nothings gunna stop us
On a cold day, you can run through metal In a graveyard, we'll be making babies
In a graveyard, it's raining up in heaven Silent cold, nothing's gunna stop us
Silent cold now, silent cold, silent cold A man can be happy with the weather
As long as it doesn't snow?
to run and hide
Wintertime is a razor blade the devil made
it's the price we pay for the summertime
