

Whir

Smashing Pumpkins

I've wasted all my years
Been chasin' all my fears
For another
Brighter than you I gave in long ago
To make it to the show
It's not easy
When you're alone All your prayers
In my ears
Don't you care Whir yourself around
Just to fall back down
Whir yourself around My honey, little girl
C'mon let's go for a whirl
It's still early
Sun us sleeping She says, she wants to marry me
She says, she wants a baby
It's not easy
When you're scared Whir yourself around
Just to fall back down
Whir yourself around All your prayers
In my ears
Don't you care
