

Just Add Moonlight

Eli Young Band

You can buy her flowers and good champagne
Write her a song on your old six-string
But if you really want to change the game tonight
Just add moonlight If you've said everything you want to say
You're still not sure it's gonna go your way
If you're afraid that her heart's just out of sight
Just add moonlight Kisses are sweeter and the world seems right
With that big yellow ball shining in her eyes
If you want to make her fall in love tonight
Just add moonlight There's a secret all the poets know
There's something special in the way it grows
If you want to make a love song turn out right
Just add moonlight Kisses are sweeter and the world seems right
With that big yellow ball shining in her eyes
If you want to make her fall in love tonight
Just add moonlight You hold her tighter and the whole world sings
It's that magic moment that's in every girl's dreams
If you want to make her fall in love tonight
Just add moonlight You hold her tighter and the whole world sings
It's that magic moment that's in every girl's dreams
Want to make her fall in love tonight
Just add moonlight Kisses are sweeter and the world seems right
With that big yellow ball shining in her eyes
If you want to make her fall in love tonight
Just add moonlight Just add moonlight Just add moonlight Just add moonlight
